

Medellín, February 14, 2024

Dr.
Laurie J. Krom
Program Director
Collaborative Center to Advance Health Services

Dear Laurie,

We kindly inform you of the change of the director of ITTC Colombia, Ovidio Muñoz, with extensive experience in the field of drug demand reduction.

Ovidio Muñoz. Psychologist, Master in Education and Human Development, PhD in Epidemiology and Biostatistics. Professor Universidad CES, Researcher in Psychology, Health and Society and Epidemiology and Biostatistics groups of the same University. Areas of interest Prevention of drug use and mental health. With experience and leadership in university teaching, strategic planning, construction and direction of public policies, design and coordination of plans, programs and projects on issues of mental health and consumption of psychoactive substances from public health. Experience in coordination of work teams, with listening, leadership, creativity, critical capacity and communication skills.

We have already started the 2024 work plan and hope to continue to count on the full support of ITTC central.

Dedsy Yajaira Berbesi Fernandez
Manager ITTC
Dean Faculty of Nursing
