

"You're on mute!"

Topics include:

- engagement strategies
- addressing virtual burnout
- promising practices for production & facilitation
- virtual preceptorships and skills-based training strategies
- training trainers/faculty to move their presentations online
- distance learning terminology for learning management systems

FEDERAL TRAINING CENTERS COLLABORATIVE

FTCC Virtual Learning Sessions

The COVID-19 pandemic has drastically altered the way we conduct training for federally-funded training centers. Training centers have redesigned classroom courses for virtual delivery, have increased the number of distance learning events, and have been catapulted into the virtual world. Join the **Federal Training Centers Collaborative** (FTCC) for a 2-part learning series to share current best practices, barriers, and the current state of virtual training.

Trainers from across the FTCC will discuss their experiences since fully transitioning to virtual classrooms. The purpose of this series is to improve and enhance the execution, facilitation and evaluation of virtual programming. Each session will consist of three, 30-minute panel discussion topics, with Q & A built-in for each topic.

These learning sessions are intended for FTCC training faculty and staff.

Session 1:

February 17, 2021

3:30-5:00 PM ET/12:30-2:00 PM PT

Session 2:

March 17, 2021

3:30-5:00 PM ET/12:30-2:00 PM PT
